Professional Summary

Highly motivated Computer Science student with strong foundations in Data Structures, Algorithms, and Software Development. Proficient in Java, Python, and SQL with hands-on experience in backend development and database management. Passionate about solving real-world problems and building scalable, efficient systems. Seeking an SDE Internship to contribute to impactful, user-centric applications.

Technical Skills

Languages: Java, Python, C, C++, SQL
Core CS: Data Structures, Algorithms, OOP, DBMS
Tools: Flask, MySQL, WordPress

Projects

Hospital Patient Management Portal **(Python, Flask, MySQL)**
Developed a full-stack web application to manage patient records, appointments, and prescriptions using Flask and MySQL with secure and scalable backend design.
Automated report generation reducing workload by 40% and used SQL analytics to improve operational efficiency by 18%.

Internship

Web Developer Intern — OneYes Infotech Solutions Pvt Ltd
Developed and maintained web applications, integrating frontend and backend components.

AI Developer Intern — CKM BuildBase Pvt Ltd
Worked on AI-based solutions, focusing on data processing and basic machine learning workflows.

Certifications

- Oracle Certified SQL Specialist
- Oracle Certified Professional: Java SE 11 Developer
- Oracle Certification in Generative AI and Data Science

Education

B.Tech CSE (AI), Saveetha School of Engineering 2023–2027
CGPA: 9.2/10
Narayana Junior College 2021–2023
Percentage: 88.2%
Silver Bells High School 2020–2021
Percentage: 100%

Achievements

- Solved 150+ problems on LeetCode focusing on Data Structures and Algorithms.
- Secured top position in Technical Quiz & Code Debugging Competition (2024).
- Participated in HackFinity 2025 Hackathon.
